Nishan Khadgi

SOC ANALYST

NY-11377 | +1 (518) 335-2680 | nishankhadgi091@gmail.com | LinkedIn | GitHub

SUMMARY

Cybersecurity professional with experience in SOC operations, security monitoring, alert triage, incident investigation, threat detection, and incident response. Skilled in analyzing endpoint, network, identity, and cloud security events to identify suspicious activity and assess potential threats. Knowledge of SIEM/EDR technologies, MITRE ATT&CK, threat intelligence, IOC analysis, phishing investigations, log correlation, and security automation. CompTIA Security+ and CompTIA CySA+ certified, with AWS Certified Security - Specialty certification.

TECHNICAL SKILLS

Security Operations
Security Monitoring, Alert Triage, Incident Investigation, Incident Response, Threat Hunting, IOC Analysis, Phishing Investigation, Malware Analysis, Root Cause Analysis

SIEM & Detection
Splunk, Microsoft Sentinel, IBM QRadar, Elastic Security, SPL, KQL, Log Correlation, Detection Rules, Alert Tuning

Endpoint & Network Security
EDR/XDR, CrowdStrike, Microsoft Defender for Endpoint, SentinelOne, Firewalls, IDS/IPS, Wireshark, TCP/IP, DNS, HTTP/HTTPS

Threat Intelligence & Frameworks
MITRE ATT&CK, Cyber Kill Chain, Threat Intelligence, IOC/IOA Enrichment, TTP Analysis, NIST Cybersecurity Framework, CIS Controls

Cloud & Identity Security
AWS Security, AWS CloudTrail, Microsoft Azure, Microsoft Entra ID, Identity and Access Monitoring, Cloud Security Monitoring

Scripting & Systems
Python, PowerShell, Bash, Windows, Linux, Active Directory

Security Tools
ServiceNow, Jira, SOAR, Security Playbooks, Incident Documentation

PROFESSIONAL EXPERIENCE

SOC Analyst | Sygnia, USA

May 2025 - Present

- Monitor and triage 300+ security alerts weekly across SIEM, EDR/XDR, endpoint, network, and identity systems, prioritizing threats by severity and business impact.
- Investigate 45 security cases monthly, correlating system logs, authentication events, network traffic, and threat intelligence to identify suspicious activity.
- Analyze phishing, malware, credential abuse, and unauthorized access; enrich IOCs and map attacker techniques to the MITRE ATT&CK framework.
- Conduct threat hunting and maintain 10+ SIEM detection rules/use cases to strengthen threat detection and improve alert quality.
- Support incident response through evidence collection, containment coordination, remediation tracking, and incident documentation.
- Use Python, PowerShell, and Bash to automate investigation and enrichment tasks, targeting 5+ hours of time savings weekly.

EDUCATION

Bachelor of Science in Computer Security

Aug 2022 - May 2026

State University of New York (SUNY) at Plattsburgh, NY

CERTIFICATIONS

CompTIA Security+ | **CompTIA CySA+** | **AWS Certified Security - Specialty**
