NISHAN KHADGI

TECHNOLOGY RISK CONSULTANT / CYBERSECURITY · GRC · IT AUDIT

Assessing technology risk. Evaluating controls. Translating complex security and compliance requirements into actionable insights.

PROFESSIONAL PROFILE

Technology risk and cybersecurity GRC professional with experience supporting COBIT-based assessments, IT general and application control reviews, third-party compliance evidence, risk registers, remediation tracking, and stakeholder reporting. Focused on keeping conclusions traceable to evidence and presenting risk observations in clear, actionable terms.

PROFESSIONAL EXPERIENCE

ScaleAI, USA

OCT 2026 — PRESENT

Technology Risk Consultant

- Supported COBIT-based assessments across three enterprise applications.
- Maintained risk-register and risk-control-matrix records for 15 risks; reviewed ITGC and ITAC documentation.
- Documented six ISO 27001 control observations and tracked remediation through ServiceNow GRC and RSA Archer.
- Used Power BI and Excel for reporting and communicating assessment results.

Lumen Tech., India

MAY — JUL 2022

Cybersecurity Risk Assessment & Third-Party Compliance Review

- Reviewed security documentation across four IT systems and evaluated vendor assurance evidence.
- Recorded eight potential compliance gaps and maintained vendor risk registers and reporting.

TCS, India

JAN — APR 2022

IT General Controls Risk Assessment & Compliance Review

- Reviewed ITGC across three business applications and documented 12 control observations.
- Prepared remediation recommendations and Power BI reporting.

WORKING APPROACH

UNDERSTAND	TRACE	ACT
Clarify risk context and control objectives.	Tie conclusions to supporting evidence.	Translate observations into remediation.

CAPABILITIES & SELECTED WORK

IT GOVERNANCE & RISK	COBIT · COSO · Enterprise Risk Management · IT Risk Assessment · Risk Registers · Risk Control Matrices
IT AUDIT & CONTROLS	ITGC · ITAC · SOX 404 · Access Controls · Change Management · Segregation of Duties · Control Testing
CYBERSECURITY & COMPLIANCE	NIST CSF · NIST SP 800-53 · ISO 27001/27005 · CIS Controls · SOC 2 · Vulnerability Assessment · Data Privacy
THIRD-PARTY RISK	TPRM · Vendor Due Diligence · Assurance Evidence Review · Privacy Impact Assessment
TOOLS & ANALYTICS	ServiceNow GRC · RSA Archer · OneTrust · AuditBoard · Excel · Power BI · SQL
CLOUD & INFRASTRUCTURE	AWS · Microsoft Azure · Cloud Security · IAM/PAM · CIS Benchmarks · Disaster Recovery · Business Continuity

SELECTED PROJECTS

ITGC CONTROL TESTING & REMEDIATION

Synthetic control-testing explorer with 20 sample records across 10 illustrative controls, outcome filters, evidence notes, and eight fictional findings.

THIRD-PARTY VENDOR RISK ASSESSMENT

Illustrative comparison model with six fictional vendors, assurance evidence review, synthetic findings, and a custom practice rubric.

REACT + NODE.JS STOCK API

Software-learning project covering React, Express, REST requests, and CORS. Uses randomly generated stock values and has no authentication or token system.

EDUCATION

B.S. in Computer Security AUG 2022 — MAY 2026

State University of New York at Plattsburgh · New York, USA

ADDITIONAL LEARNING

Cloud Platform Job Simulation · Cybersecurity Consulting Simulation · Cybersecurity Job Simulation

NOTE ON PORTFOLIO DATA

Dashboard metrics and project examples are synthetic portfolio exercises. They are not live production telemetry, client audit results, or employer security metrics.
